Compliance Trainings that must be Completed by Pediatric Providers

1. Attending Physician Coding and Billing Compliance Training (includes Health Care Fraud Waste and Abuse Training)
   - Training is a federal requirement for all providers that bill.
   - U of U requires all providers that bill under a University TIN complete this training, regardless of the facility where they are practicing.
   - Training must be completed annually.

2. HIPAA Privacy
3. HIPAA Security
   - Trainings are federal requirements based on federal privacy and security rules.
   - Modules were created specific to the U of U and must be completed by anyone that has direct or indirect access to protected health information.
   - Both trainings must be completed annually.

4. Auxiliary Aids
   - Training is a federal requirement from the U.S. Department of Health and Human Services, ADA/Section 504.
   - U of U requires all employees that work in a health care setting to complete this training.
   - One-time training required at the time of hire.

How to access the training:

Go to [https://hrit.utah.edu/lms](https://hrit.utah.edu/lms). Log in with uNID and CIS password. Complete lesson modules by assigned due date.
