Diagnoses:
Heart Center genetics is only for patients who have genetic heart related diagnoses only. All other genetic diagnoses will need to be treated through the medical genetics department. If you have questions please send Lindsay Meyers a message log for clarification.

HCP:
- Family History of structural heart defects (ASD, VSD, AVSD, Truncus Atriosus, TGA, TAPVR, BAV, COA, HLHS, etc.)
- Any patient being referred to genetics by one of our cardiologists
- Noonan Syndrome
- Williams Syndrome
- 22q11 Deletion (Di George Syndrome)
- Turner Syndrome
- Patients with congenital heart defects and other anomalies/birth defects

AOP:
- Marfan Syndrome
- Loeys-Dietz
- Familial thoracic aortic dissection
- Personal history of aortic dilation/dissection
- Any patient seen in the aortopathy clinic can be seen in heart center genetics if requested by the cardiologist

Location:
PCOS GENERAL GENETICS [11325]
Eccles Outpatient Services Building, 2nd Floor, Station 2
RIVERTON GENERAL GENETICS [10980]
