1- Select “Non-Face-to-Face” from the Create note link on workflow page

Most Pediatric Physician Roles have this create note link on one to two page workflows i.e. Inpatient Admit & Clinic Workflow

2- Document following Non-Face-to-Face or Curbside Consult Documentation Guidelines

Template updated to reflect CMS rule changes to allow billing for NF2F <31min & for APPs plus curbside consults. Template also updated with documentation tips for both, which do not publish in the note.

*NEW in-template documentation tips* will not publish in your note.

if you leave a section blank, i.e. Date of Companion E and M the header will not publish in your note.
